### 2 Billion may Suffer from Mobile Cancer by 2020: Australian Health Research Institute Reports

**New Delhi, Delhi, India, Friday, June 20, 2008 -- (Business Wire India)**

The studies and survey conducted by Australian Health Research Institute indicates that due to billions of times more in volume electromagnetic radiation emitted by billions of mobile phones, internet, intranet and wireless communication data transmission will make almost 1/3 rd of world population (about 2 billions) patient of ear, eye and brain cancer beside other major body disorders like heart ailments, impotency, migraine, epilepsy etc. According to the reports the tissues of children are tender and are likely to be more effected by use of any wireless gadget and devices and they should not be encouraged to use mobile phone. The fatal and volumetric effects of Electromagnetic Radiation emitted mainly by mobile phones, Mobile phone antenna, tower, Mast, Transmission Tower, Microwave oven, wireless devices, system and equipment. These dangerous effects have been certified and confirmed repeatedly by many leading medical and scientific research institutions of the world including Ministries of health of various governments, W.H.O. and now have been admitted and confirmed by Govt. of India in their recent press releases.

The attached image shows and proves about the serious ill effects of E.M. radiation released by Radiation Nuclear and Safety Authority of FINLAND as to how E.M. radiation emitted by mobile phones damages the various body cells and causes incurable and fatal diseases.

Symptoms and Health Risks by use of mobile phone:

-- As and when, any mobile user starts feeling, sleep disturbance, restlessness, depression, nervousness, headache, reduction of power in concentration, hot spot in the brain and partial overheating of brain, eyes and ears, high blood pressure, productivity problems (impotency, exhaustion, physical weakness, genotype disturbances, changes in blood formations and change of readings glasses number, it is a clear warning that person with such symptoms is suffering one or the other dangerous diseases due to excessive use of mobile.

Precautions, the Mobile users must take

Never keep Mobile phone near your heart (left pocket), ever allow children below 16 years and pregnant women to use Mobile phones, never cook food in a microwave oven, never give infants and children pre heated milk or food from micro wave oven, never use premises for living and working where transmission mast / tower are installed.(effective range is 66meters in radius),switch off Mobile phones when not in use, never keep mobile near to your bed side when sleeping, prefer the usage of land line if available, Use Mobile phones only in Emergency and for very short duration, never use other wireless gadgets for very long durations.

-- It is always advisable that mobile phone should not be treated and used like a land line nor it is an alternate to landline and it should be used as an emergency alternate to land line. Availability and use of mobile in urgency may click a deal and bring fortune to few and in case of accidental emergency, police and ambulance services can be contacted, medical aid may be provided and few lives may be saved. But excessive use of mobile can finish once life particularly when the one use the same while driving, while walking and talking on road and excessive use of mobile without any protective device is more harmful than smoking and chewing of tobacco.

#### Protective and safety device

The leading mobile phone handset manufacturers of the world, including Nokia, Motorola, Siemens, Ericsson, Samsung etc and operators are blaming each others rather than owning the responsibility to work and produce one or the other safety devices or incorporate the available devices in their handset. A leading German researcher innovated, designed, developed and started marketing a wonder chip known as Green 8 for mobile, computer and buildings. This worldwide tried, tested and proven chip is in the world market since 1996. Millions of consumers worldwide have used, are using and have been benefited. The field reports of Green8 magic chip, which is neither a shield, nor an absorber, nor an protector but it is only a neutralizer as claimed by the innovator. This chip works and functions on the tried principle of harmonizing, transforming and neutralizing the negative polarity of electromagnetic radiation into positive polarity of radiation which leaves no biological effects on human organs, vegetables and planet. For any and all further information on radiation, world news and protective devices, readers may contact by sending e-mail. to green8@mail.com or green8@usa.com.

### Potential new risk from mobile phones

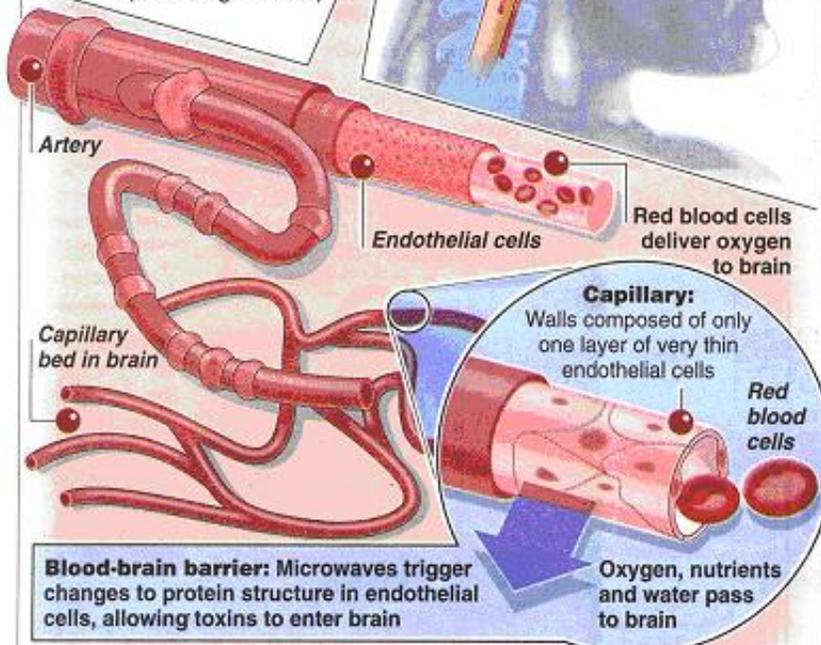

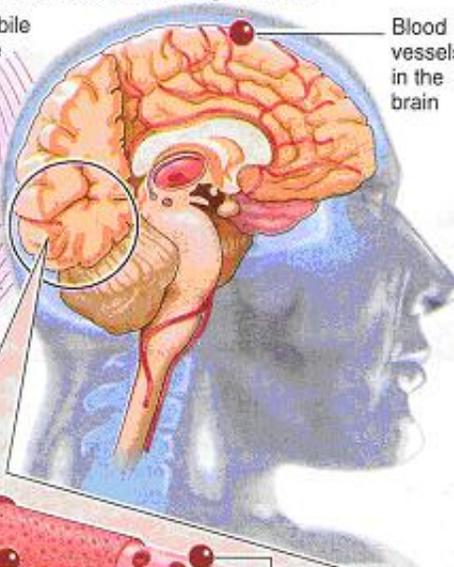

Scientists have discovered that exposing human endothelial cells – which line the minute blood vessels in the brain – to mobile phone radiation can damage the blood-brain barrier, a vital safety barrier that stops harmful substances in the blood from entering the brain

**Radiation:** Mobile phones generate microwaves

Blood vessels in the brain

**Damage:** Endothelial cells stressed after 1 hour's exposure to mobile phone radiation limit (2 watts/kg of tissue)
