In addition to these entities, there are separate Clinton family foundations that maintain their own revenue streams: the Clinton Health Access Initiative (CHAI), the Bill, Hillary and Chelsea Clinton (BHCC) Foundation, the Clinton Foundation Hong Kong, William J. Clinton Foundation Charitable Trust (Kenya), William J. Clinton Foundation Charitable Trust (UK), and the Clinton Foundation *Insalingsstiftelse* (Sweden). All these entities maintain separate operations for the Clintons' pay-to-play global racketeering operations.

The Clinton operations are massive in relation to the reported lobbying dealings that Donald Trump's campaign manager, Paul Manafort, maintained with the former Yanukovich government of Ukraine. The sudden appearance of "secret ledgers" containing Manafort's name and alleged cash payments to him by the puppet Ukrainian government of George Soros bear all the signs of another Soros/Cass Sunstein disinformation operation.
